

OFFICE MEMORANDUM • STANFORD UNIVERSITY

DATE: July 10, 1961

To : Dr. Lederberg

FROM : Dr. Schwartz

SUBJECT: Tenure of Mr. Don Card's genetic traineeship

Dear Josh:

I wish to thank you for supporting Don during the past year. He is a good young man and should do well in the future.

As you may recall, Don had supported himself through undergraduate school as a part-time technician for me at Utah. Your generous assistance not only enabled him to start his graduate studies, but enabled me to get my laboratory started much more rapidly than had I not had Don's help.

Although I am sorry to see him leave, I am delighted that he has found the direction he wishes to continue in graduate school.

Sincerely,

Herbert C. Schwartz, M.D.
